About Texas Tea Enterprises, LLC

Since 2021 we have been buying and rehabbing distressed oil leases to increase production. The bulk of our projects are in West Texas.

We are an oil and gas production company that buys discounted existing oil leases in West Texas through our network. We re-work the leases to increase daily production in order to maximize the lease, increase their value, and provide significant returns for our investors.

We control the entire re-work process end to end; the purchase, re-work and operations. By doing this we reduce the need for 3rd party contractors, allowing us to move faster, more efficiently, and be more cost effective.

WHY INVEST IN THIS OPPORTUNITY

PASSIVE INCOME

**CONTROL PROCESS
END-TO-END**

**CURRENT OIL
PRODUCTION**

**HIGH RATES
OF RETURN**
